» PERSONAL SUMMARY

An energetic and imaginative young Full-stack Web Developer with a strong Sales and Marketing background who is able to work alongside other talented professionals. Being in an industry that's quickly growing and changing I'm no stranger to learning new languages or frameworks, and value growth over recognition and comfort. I'm always open to new ideas and opportunities and always excited to showcase them.

» SKILLS

STRONG: Ruby. Javascript(AJAX, JQuery), HTML/CSS, Rails, Sinatra, Node, Express, Jade, React, Socket.io, Firebase, Heroku, Parse, PostgresSQL, SQLite, ActiveRecord, Object-OrientedDesign, TDD(RSpec, Jasmine, Capybara)
EXPERIENCED: React, Socket.io, Node.js, Express, Jade, Node, Express, Jade, Firebase, Heroku, Parse

» PROJECTS

TheHufts

TheHufts is currently an web app that's used as a stock training platform. It streamlines the process of developing, using a stock trading strategy, making it a viable investment option for anyone. You can securely upload an algorithm and test it against historical and real time data show a user their loss or profits. This app is being built using NodeJs, Express, Jade, Parse.

THE GAME

'The Game' is a 2D Multiplayer Side-scrolling Shooting game that lets users log in with their facebook or google account and create a room to play in or jump in a room of choice. The Game was built over a 6 day period, using MongoDB, NodeJS, ExpressJS, Socket.IO, and Phaser, Jade, HTML, Grunt, and Yeoman.

B.A.C.E.(Blood Alcohol Content Estimator)

B.A.C.E. is a web app that let's users log in with their Uber account and gives them an estimate of what their Blood Alcohol Content would be at based on an algorithm that takes a user's weight, gender, amount of ounces of alcohol consumed, and duration of time drinking as parameters and if the result shows their blood alcohol content is over the legal limit, it lets the user order a ride home from their Uber account. B.A.C.E. was built using HTML/ CSS, Ruby, Javascript, Sinatra, Uber API, Google Maps API, and ChartsJS.

» EMPLOYMENT

Dev BootCamp - *Mentor* - San Francisco, Ca   Sep 2015 - Current

Troubleshoot errors with students by walking them through the underlying logic of the code as well as determining edge cases.
Help students on topics such as OOP best practices, ruby fundamentals, and algorithmic problem solving.

Dev Bootcamp - *Apprentice Web Developer* - San Francisco, Ca   Dec 2014 - Sep 2015

DevBootCamp is an immersive 1000+ hour apprenticeship that focuses on full stack development skills such as RubyonRails, Javascript, jQuery, Relational Database Management Systems, Sinatra, HTML, and CSS. But also gives you the opportunity to learn other technologies of your choosing quickly, where I got the chance to work with frameworks and libraries such as Sinatra, jQuery, Node.js, Express, and React.js.

 The program culminates with team projects focusing on agile development, version control, iterative software practices, and empathetic communication.
Created schema, migrations, and databases that support web applications and web sites.
Developed test routines and schedules to ensure that test cases mimic external interfaces and address all browser and device types via RSpec and Capybara
Maintained understanding of current web technologies and programming practices through continuing education, reading, and participation in professional conferences and groups.

Self Employed - *Marketing and Sales Affiliate* - Riverside, Ca   Jan 2013 - Nov 2014

Connected different companies to customers or to other sales affiliates, then trained other sales affiliates, if needed.

Public Speaking at events with 100+ people attending.
Strong communications abilities.
Experience in providing direct marketing and managing all affiliate services in entertainment and travel industry.
Remarkable ability to develop long and short term objectives.
Exceptional ability to multitask and complete work within deadline.
Skilled to make necessary decisions.
Excellent skills in Photoshop and graphic designs.
Familiarity in supervising work of subordinates.
Proficient in working on various affiliate networks and managing related programs.
Substantial understanding of search engine optimization techniques.
Notable ability to establish and achieve client marketing goals.
